About

Hello! I am Núria, currently studying a Bachelor's degree in Video Game Design and Development at CITM-UPC. I'm hard-working and creative, and always put my all in what I do. In projects, I partake, I am usually proactive and perfectionist, and I tend to fall into a leadership role. I am especially passionate about my hobbies, which include writing and reading, board games and video games, cultures and languages and animal wellbeing.

I am currently looking for an internship as a video game designer, producer or QA, in digital marketing or as a data analyst. All of these I have learned during the past few years at university or as courses, and I am confident in my abilities.

Skills
